

Goji Testimonials

My wife & I started taking Goji juice 14 months ago, October 2005 after a friend of ours told us about the results he was getting from it.

We then decided to give it a go, mainly because it had a money-back guarantee, so we knew it couldn't hurt to give it a try.

I noticed I was getting great results only after a few weeks, the first things I noticed was I was getting a better quality of sleep & less trips to the toilet during the night, instead of 3 or 4 trips a night it was now down to sometimes once a night or not at all. During the day I was getting a huge amount more energy.

For many years I had a lot of back & neck pain along with bad headaches, where in the past I went to chiropractors and then later in life went to psychotherapists to get some relief. In the past I would go around once or twice a month and now I go once every 6 months. The pain I used to have has gone considerably and the headaches are now rare.

Other noticeable results up till now with myself, my dry cough I also had for some years has gone, I don't stress anymore, got a lot more strength, the warts on my hands disappeared, no more bleeding gums and always happy.

My wife has also had great results, no more bleeding gums, no more dizziness, lots more energy, better sleep and after 4 years of stomach ulcers they now don't exist and no more medication from the doctor all thanks to GOJI.

We would love to see everybody give this goji a go, the world would be a much happier & healthier place. We now have a lot less trips to the doctors, dentists etc and we are now are a lot healthier all thanks to GOJI. We love our GOJI and never go without it. Alan & Beverly Strobridge, Victoria, Australia.

[Severe Migraine Problem](#)

For many years I've had a history of moderate to severe migraines with light sensitivity and nausea often triggered by the barometric pressure from change in temperatures as well as hormonal changes. Since being on the Goji(2 months) no more migraines and change in weather doesn't get to me. My hormones are balanced too! I only regret not having found Goji juice years ago!

Inflammation and Headache Thing of Past

My wife was suffer a severe inflammatory on her left side of her body for almost one year. This was from her left hand side down to her left foot. Aside from these, she was suffering a severe headache every time her monthly visit. After taking 2 ounces of GOJI juice daily for almost 1 week all of her pains in her body was gone. As of this time, all of us in my family drink GOJI juice everyday. No matter how it's "COST".
