Superb comfort pillow, enhances breathing, less facial pressure

The new shape of comfort. Looks different, is different! An all-purpose adjustable pillow that is an important breakthrough for anyone seeking optimum comfort, clearer breathing patterns, and less facial pressure.

It is shaped to encourage side sleeping, good posture and quality sleep.

The new shape of comfort

The Dove's unique wrap-around design quite literally 'hugs' you when side sleeping and as such encourages you to stay in that position for longer periods (may help minimise 'simple snoring'). It is about as smart (and as snug) as you can ever make a pillow!

Dove uses luxury-grade eggfoam gently configured to cradle the head and neck in perfect alignment. It also features a

custom-tailored padded quilted cover and soft polyester fibre which can be positioned for personal comfort, and comes with its own custom tailored pillow case.

Cosmetic Benefits - Less Facial Pressure

Beauty pillow - designed to relieve pressure and stretching to sensitive facial skin

Side Sleeping for snorers

Encourages you to sleep in the preferred side position - helpful in minimizing simple snoring.

The Dove's unique wrap-around design quite literally 'hugs' you when side sleeping and as such encourages you to stay in that position for longer periods (may help minimise 'simple snoring'). It is about as smart (and as snug) as you can ever make a pillow!

Shaped for easier breathing

Enhances airflow to your mouth and nose for clearer breathing.

Fully Adjustable to suit you

Dove is height adjustable and easily conforms to your physique and sleeping position.

- » The Dove pillow contains soft polyester fibre which can be positioned for personal comfort
- » The Dove pillow also contains removable foam sleeves for people who like a lower pillow.

Promotes Good Posture

Designed to care for the natural alignment of your spine by gently cradling your head and neck in perfect balance.
